

## THE PROBLEM

Digital currencies have achieved phenomenal growth in recent years. Yet because of slow merchant adoption due to concerns of transaction speed and fees, it still remains fairly inconvenient to pay for goods and services with cryptocurrencies. Current blockchain projects are isolated and promote innovation only within their own technologies and community.

## THE MFCHAIN SOLUTION

MFChain has a mission to breakdown the common barriers of all cryptocurrencies to create a collaborative digital economy that embraces any host of innovation. MFChain is building the most cost-effective cryptocurrency payment ecosystem that rewards the consumer as well as the merchant. MFChain's innovative rewards program will bridge the cryptocurrency gap between merchants and consumers.

### For Consumers

- Freedom to Spend Crypto without Exchange
- Consumer Rewards: 1% Rebate
- Instant Transactions
- Option to Pay in Multiple Cryptocurrencies

### For Merchants

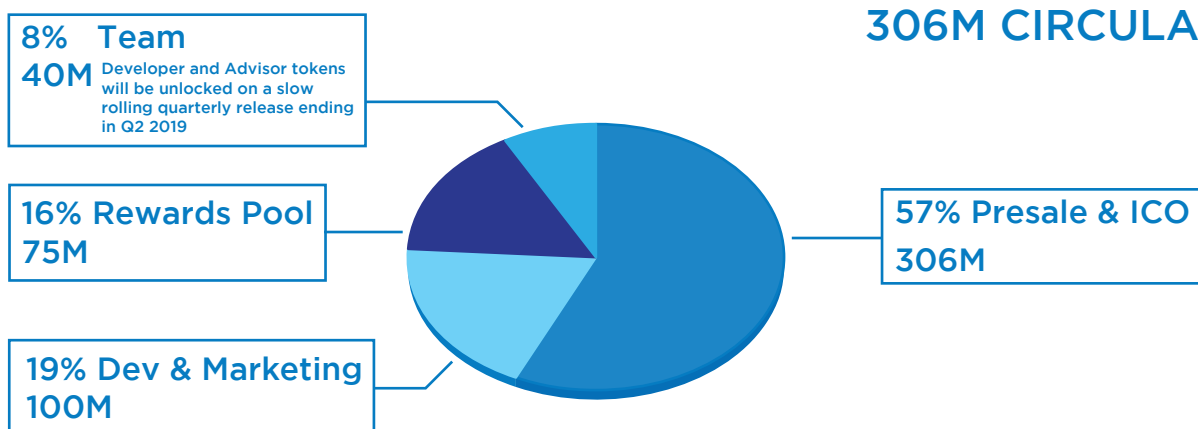

- Freedom from Merchant Banks & Processors
- Merchant Rewards Program: 1% Rebate
- No Chargebacks, Interchange Fees, Assessment Fees or Payment Gateway Fees
- No "High Risk Merchant" Category
- Fiat Conversion Options
- New Market Reach

## OUR GREATER VISION IS MF MAINNET

### For Developers Innovators & Creators

- MF Mainnet – Set to release in 2019.
- Verified Digital Identity with user controlled privacy features
- Multi-Currency ICO Platform - Allows ICO projects to accept any number of cryptocurrencies through live token generation sales with a single smart contract
- Side Chain Processing
- Atomic Swap Cross-Chain Transactions
- Enterprise Level Private Blockchains - allows businesses to deploy proprietary code on closed systems
- Multi-language smart contract programming - compilers for C++, C#, Java, Python, NodeJS & Solidity
- Prebuilt contract library
- Innovation Incubator
